Facility Overview

Only Yu is a hot spring facility surrounded by greenery at an altitude of 250 meters. It has indoor baths, outdoor baths, and saunas. The hot spring water that wells up from land that was shaped 15 million years ago is said to be therapeutic, and its gentle qualities make it ideal for people with delicate skin such as senior citizens and children.

Highlights

The outdoor bath is at 38°C, a gentle temperature said to be ideal for boosting immunity. Surrounded by a broadleaf forest, visitors can enjoy both forest bathing and hot spring bathing at the same time. With a pH of 9.5, the alkaline hot spring has an exfoliating effect and is therefore known as *bihada-no-yu*, or hot spring for beautiful skin. A river flows in front of the newly built sauna facility, providing views of verdant greens in spring and red leaves in autumn.
