Facility Overview

The Odawara Hakone Kenshin Clinic is a clinic that specializes in complete medical examinations that opened in February 2021. It takes up the entire 7th floor of Minaka Odawara and provides a clean and comfortable environment for medical examinations. The clinic has its own viewing salon from which patients can look out over Odawara Castle, Sagami Bay, and the Hakone mountains, and patients can undergo exosome IV therapy and other health IV therapies for improving immunity, treating fatigue, anti-ageing, and dieting, for example.

Highlights

Equipped with the best facilities in Kanagawa Prefecture, the clinic offers complete medical examinations for both men and women, as well as other comprehensive examinations using CT scans, MRI scans, and risk assessments. The clinic also offers DWIBS inspections for whole-body cancer screenings using MRI scans, brain checkups, lung checkups, and stomach and colon endoscopies. Doctors can provide provisional results on the same day. For tests specific to women, such as breast and uterine cancer tests, the clinic ensures only female doctors and staff handle the examinations. Explanations and results reports can be provided in Chinese and English.

- One-day complete medical examination: Comes with a coupon for use at restaurants and souvenir stores in Minaka Odawara
- Overnight complete medical examination: Accommodation at Tenseien Odawara Station Annex. Comes with a coupon

Details/Schedule

Nearby Tourist Information

Odawara Castle

Designated as a national historic site, Odawara Castle was an impregnable structure that continues to be adored following rebuilds and restorations

Hotoku Ninomiya Shrine

A shrine dedicated to Ninomiya Sontoku, who was born in Odawara and dedicated himself to the restoration of farming villages. Adjoining the shrine are a delicious restaurant and cafe
